

Nu Html Checker

This tool is an ongoing experiment in better HTML checking, and its behavior remains subject to change

Showing results for contents of text-input area

Checker Input

Show ☒ source ☐ outline ☐ image report

Options...

Check by ☐ css

```
{% extends 'base.html' %}
{% block content %}
<main>
  <div class="container main-container">
    <article>
      <!-- Page Title = Custom Error Message -->
      <header class="row page-title mb-3">
        <div class="col-12">
          <h1 class="text-dark text-center mt-5">
            We are so sorry,<br>this page does not exist!
          </h1>
        </div>
      </header>
      <!-- Custom Error Icon and Option to return to Home page -->
      <div class="row">
```

Check

Use the Message Filtering button below to hide/show particular messages, and to see total counts of errors and warnings.

Message Filtering

1. **Warning** Consider adding a `lang` attribute to the `html` start tag to declare the language of this document.

[From line 1, column 1; to line 1, column 25](#)

```
{% extends 'base.html' %}↔{% b1
```

For further guidance, consult [Declaring the overall language of a page](#) and [Choosing language tags](#).

If the HTML checker has misidentified the language of this document, please [file an issue report](#) or [send e-mail to report the problem](#).

2. **Error** Non-space characters found without seeing a doctype first. Expected

```
<!DOCTYPE html>.
```

[From line 1, column 1; to line 1, column 25](#)

```
{% extends 'base.html' %}↔{% b1
```

3. **Error** Element `head` is missing a required instance of child element `title`.

[From line 1, column 1; to line 1, column 25](#)

```
{% extends 'base.html' %}↵{% bl
```

Content model for element `head`:

If the document is [an iframe srcdoc document](#) or if title information is available from a higher-level protocol: Zero or more elements of [metadata content](#), of which no more than one is a [title](#) element and no more than one is a [base](#) element.

Otherwise: One or more elements of [metadata content](#), of which exactly one is a [title](#) element and no more than one is a [base](#) element.

4. **Error** Bad value `{% static ' ' %}img/404.png` for attribute `src` on element `img`: Illegal character in path segment: `{` is not allowed.

[From line 18, column 26; to line 19, column 80](#)

```
↵
```

5. **Error** Bad value `{% url 'home' %}` for attribute `href` on element `a`: Illegal character in path segment: `{` is not allowed.

[From line 24, column 25; to line 24, column 91](#)

```
<a class="btn btn-lg btn-dark text-center" href="{% url 'home'
%}">↵
```

Document checking completed.
